## Summary

I am a dedicated Web Developer with expertise in C#, .NET, and front-end technologies. I have hands-on experience in developing responsive, user-friendly web applications and enterprise solutions. My skill set includes building scalable backend systems using ASP.NET MVC and .NET Core, integrating APIs, and crafting intuitive front-end interfaces with HTML, CSS, JavaScript, and modern frameworks. I am passionate about writing clean, maintainable code and continuously exploring new tools and technologies to improve product performance and user experience.

## Experience

### Net Developer

Onrois Infotech • Surat, Gujarat

07/2024 - Present

- Company specializing in mobile and web solutions.
- The company focuses on delivering custom mobile applications, web solutions, and MVP (Minimum Viable Product) development services for startups and growing businesses.
- Onrois specializes in turning ideas into scalable digital products, ensuring quick market entry and reliable performance.
- Onrois maintains an active presence through its website and professional networking platforms, sharing insights, product launches, and case studies that reflect its focus on innovation and business-centric technology solutions.

### Web Developer

Sky9 IT Craft Private limited • Rajkot, Gujarat

10/2022 - 06/2024

- Company specializing in IT solutions
- Developed and maintained web applications using .NET Core, Blazor, and JavaScript, ensuring scalability, security, and performance.
- Optimized database queries to enhance efficiency, leading to improved response times and reduced server load.
- Collaborated with cross-functional teams to deliver high-quality software solutions, following best coding practices and Agile methodologies
- Participated in software training sessions to onboard newly joined interns, providing guidance and support throughout their learning journey.

## Projects

### Yale University

- An interactive tool for data visualization
- Developed an interactive, step-based data visualization tool using Highcharts to enhance user insights.
- Integrated Highcharts with HTML, CSS, and JavaScript to create dynamic and responsive charts, ensuring a seamless user experience.
- Optimized data rendering for large datasets, improving performance and visualization efficiency.
- Implemented CI/CD pipelines for automated deployments, streamlining the development workflow.
- Conducted code reviews to enforce best development practices, ensuring high-quality, maintainable code.

### Presort EMS

- A platform for mail service organizations
- Developed a web-based mailing solutions platform using Blazor and Bootstrap, ensuring an intuitive and responsive user interface.

- Enhanced workflow automation and system efficiency, streamlining operations for mail service organizations.
  - Implemented real-time tracking and reporting features to improve visibility into mail processing.
  - Optimized backend performance using .NET Core and Entity Framework, improving system scalability and responsiveness.
  - Integrated authentication and role-based access control (RBAC) to enhance security and user management.
- 

## Skills

**Programming Skills :** .NET Framework ,.NET Core, ASP.NET Core , ASP.NET MVC , Web API,OOPS

**Front End Technologies :** HTML/CSS, JavaScript, J Query, Razor, Blazor, Bootstrap

**Database Management :** Microsoft SQL Server, MySQL, Postgres

**Cloud & DevOps :** JIRA, Git, Azure, AWS

---

## Education

### MCA

Saurashtra University • Rajkot

12 /2022

### BCA

Sarvodaya College of Science and Technology • Rajkot

12 /2020
